Professional Summary

Certified Full Stack Developer with hands-on experience in building responsive web applications using the **MERN stack**. Skilled in both frontend and backend development, with strong knowledge of **React, Node.js, Express, MongoDB**, and modern UI design. Previously held leadership roles in manufacturing, bringing excellent problem-solving, documentation, and coordination skills into the tech field. Completed multiple full-stack and standalone frontend/backend projects and built a personal portfolio to showcase work. Seeking an opportunity as a **Junior Full Stack Developer, Frontend Developer, or Backend Developer** in a growth-focused IT company.

SKILLS

Frontend

- HTML
- CSS
- JavaScript
- Bootstrap
- React
- React Hooks
- State management in React
- Formik

DataBase

- SQL
- MongoDB
- Mongoose

Tools

- Git
- GitHub
- VS Code
- Netlify
- Render.com [↗](#)
- MongoDB Atlas
- Postman

Backend

- Node.js
- Express
- RESTful APIs
- CRUD operations

Others

- Responsive Design
- Authentication (JWT)
- API Integration
- CRUD operations

Projects

My Portfolio, (Frontend) [↗](#)

- Developed a responsive personal portfolio website to showcase projects, skills, and contact information in a user-friendly layout.
- Implemented modern UI design and component-based architecture in React to ensure maintainability, performance, and cross-device compatibility.
- **Technologies:** HTML, CSS, React
- Portfolio Link: <https://gregarious-gaufre-2b1e99.netlify.app/> [↗](#)

Job Portal, Full Stack Project

Designed and developed a complete job portal using MERN stack.

- Built a job portal with user authentication, job listings, and admin dashboard using MERN stack.
- Features include role-based login (admin/user), job posting, and CRUD operations.
